

## BK942A SOLDERING STATION

### Features:

- High power consumption by design with high power consumption ceramic heating core.
- A three-digit display element, the temperature decreases or increases by  $\pm 1^{\circ}\text{C}$ .
- Code locking function, Temperature can't be changed at will.
- "180-450 $^{\circ}\text{C}$ " temperature range.
- Press the button to input the offset.
- Automatic sleeping function(optional).

### [Specifications]

Model:	BK942A
Power Supply:	AC 220V 50HZ
Maximal Power:	70W
Temperature Range:	180-450 $^{\circ}\text{C}$
Exterior Dimension:	W101x(H109x(L)190 mm
Weight:	2.10Kg Except Iron
Resistance to the ground:	$\leq 2\Omega$ Out of factory
Voltage to the ground:	$\leq 2\text{mV}$ Out of factory
Iron handle:	BK917A
Heating Element:	1321 Imported (ceramic heating core)
Soldering tip	900M series
