

# BT 100

## 12V Battery Analyzer

► The latest BT100 12 Volt Battery Analyzer from Foxwell is dedicatedly developed to test 12V regular flooded, AGM flat plate, AGM spiral and gel batteries. It provides a quick, easy and affordable solution for technicians to view battery charging status, check battery health and detect faults.

### Features & Benefits

- Multiple vehicle applications – passenger cars and light duty trucks
- Tests batteries rated from 100 to 1100CCA
- Tests multiple battery types - regular flooded, AGM flat plate, AGM spiral and gel.
- Tests multiple rating systems - CCA, BCI, CA, MCA, JIS, DIN, IEC, EN, SAE
- Tests the batteries on the car directly - no need to remove the battery
- Detects bad cells
- Quick and accurate test results display in just 3 seconds
- Does not emit light, heat or spark, or discharge battery - keeps operation safe for all levels of users
- Automatic temperature compensation
- Extremely easy to use with large backlight LCD display and menu-driven operation.
- Multilingual menu and test results - English, French, German, Italian, Polish, Portuguese, Russian, Japanese, Korean, Chinese and Spanish

### Specifications

Item	Range	Tolerance
Voltage measuring	6V to 18V	N/A
Battery type	Flooded, AGM, GEL	N/A
Battery rating	100- 1100 CCA	±(3%+10) CCA
Standard support	CCA, BCI, CA, MCA, JIS, DIN, IEC, EN, SEA	N/A
Weight	0.32KG	N/A
PC/CTN	48PCS	N/A
Gross Weight/CTN	16KG	N/A

### Kit Includes

- BT100 Main Unit
- User's Manual

“

I bought this product to get a better picture of battery health on riding mowers and other lawn equipment with electric start. It's compact so it fits easily in the limited tool storage I use for this purpose. It's got clear instructions and works quickly. It's saved me from having to put in new batteries on occasion already. Definitely recommended.

”
